Hi Mary,

I added the slides we discussed - and adjusted the talking points around those. Added in Atlanta specific BF info, the Airport City summary (and a slide w/ a photo of the redevelopment concept if you want it). Found the Ruckleshaus quote on EPA suing Atlanta for Chattahoochee/sewage issues – added that to the water@50 piece. Also put in the whole history of Atlantic station but it needs culling depending on how much you want to say there, but it is a pretty neat example of EPA doing something innovative/partnership.
